

**A REPORT FROM
THE COMMITTEE ON ACADEMIC ACHIEVEMENT 01/30/07**

The Committee on Academic Achievement is committed to educational excellence for the Manhasset School District. MPSA believes academic performance should be measured on a relative basis by comparing Manhasset test scores and related costs to similar school districts. Comparable school districts were selected by the Manhasset School District and listed in their annual Manhasset Student Achievement Report, 2006.

After an analysis of the most recent regents test scores and costs filed with the New York State Department of Education, we have found that Manhasset has under performed academically and over spent as compared to the Districts listed in their annual Manhasset Student Achievement Report, 2006. School Districts that outperformed Manhasset such as Cold Spring Harbor spent \$6,230 less per student. If The Manhasset District managed school operations as effectively as Cold Spring Harbor, homeowner's annual taxes would be lowered by approximately 23% per household. As such, our annual budget would be reduced to \$18million.
